

Sustainable business development by means of non-organic growth!

Changing framework conditions and the need to invest in the future (Industry 4.0, digitalization, new markets, etc.) demand the constant monitoring of opportunities in order to be able to implement them at the right point in time.

M&A office as a service

On the basis of your company strategy, together we develop a catalogue of measures with clear objectives!

Best Practice

- Common expectations and goal definition
- Innovation GAP Analysis
- Strategy and M&A matrix
- Scenarios and simulation
- Identification of targets (research)
- Due diligence
- Risk Management
- M&A deal structure and financing
- Deal closing and integration

You profit from many projects in the field of corporate finance in different sectors of industry, financial services and service companies.

We take a very pragmatic approach with a clear focus on the achievement of goals in the workshop and in the project.

Plan a workshop together with us.
