

Have Transparent Decision Criteria and Risks!

Changing framework conditions and opportunities demand an up-to-date database for integrated reporting and scenario analysis at the company level as well as at the group level.

Workshop Performance Management

Together we will develop a catalogue of measures.

Best Practice

- Common expectations and goal definition
- common datamodel
- IFRS, Swiss GAAP FER, etc.
- Standardized and automated processes
- Scenarios and simulation of actual, plan and forecast
- Data Science
- Integrated Reporting
- Management Reporting
- Education and Training

You profit from more than 100 projects in the area of performance management in different sectors of industry, financial services and service companies.

We take a very pragmatic approach with a clear focus on the achievement of goals in the workshop and in the project.

Plan a workshop together with us.
